

Dr. Harry North, 160 W. State St., Trenton, in 1908 or 1909 lived at 284 Hamilton Ave., Trenton, next door to Mrs. Easton at 286. He considered her a dirty, uncouth person and unworthy of belief. Only time he spoke to her was in regard to the filthy condition of her children. After she moved from 336 So. Broad Street she moved to a place known as Dog Town, outside Trenton. One night the Doctor was called in to attend her when, while driving her wagon, she was struck by an auto driven by Al Manning of A. V. Manning Sons Co. Tho there was really nothing wrong with her she was inclined to exaggerate her injuries.

Clifford A. Worthington, a real estate operator at 144 East State St., Trenton, has contract dated May 3, 1910 signed by William H. Easton and Jessie M. Easton, his wife, for the purchase of land from Robert Butterworth and others on northerly side of Butler St., the consideration being \$600; paid \$300 in cash and \$25 monthly. Before taking title she employed Winfield Scott Hill to erect barn on property and failed to pay him.

McClurg said Mrs. Easton asked him one day if he could tell her nationality, stating one of her parents, French, one German, and she was born on a Spanish ship. On another occasion she told him she had at one time been a bareback rider in a circus.
